Projects:

Django Blog (In Progress):

- Teaching myself the Django workflow by creating a blog. Tech stacks are Django, Bootstrap, Python, PostgreSQL, and Heroku.

Flask Blog:

- Created a simple blog app, focused on Flask functionality. Tech stacks are Flask, Python, SQLAlchemy, HTML, and CSS. Hosted on Python Anywhere.

Interactive Resume:

- Created an interactive resume as part of Udacity's Front-End Web Developer Nano degree. Tech stacks are HTML, CSS, JavaScript, and JQuery.

Mock-up Portfolio:

- Taking from concept to design, I built a portfolio app as part of the Udacity's Front-End Web Developer Nano degree. Tech stacks are HTML, CSS, JavaScript, and Bootstrap.

Wiki and Blog engine:

- Built a blog and wiki engine as part of the Udacity's Web Development Class. Tech stacks are HTML, CSS, Python, Webapp2, Google Data Store, and Google App Engine.

Relevant Experience:

Blackberry, Beta Software Analyst (Intern): *Waterloo, Ontario, Canada*
January 2015 – April 2015(4 months)

- *Responsibilities:* Analysed incoming bug reports using root cause analysis, prioritized, and triaged them to appropriate software development teams. Black Box tested pre-release software, Translated non-technical to technical feedback from Beta Software participants.
- *Accomplishments:* Found and helped solved 4 software defects that is now in the next release of Blackberry OS 10.3.2. Idea for distributing Blackberry stickers in hackathons and events was approved by Marketing Department. One of few selected interns to meet the VP of Devices to provide feedback on how to improve culture, target market, and Blackberry phones.

Udacity, Code Reviewer : Mountain View, California, USA
February 2015 – Present

- *I am one of the very first Udacity Code Reviewers, where I review student project submissions. For each submission, I do both a thorough code review and project evaluation. I strive to give actionable and helpful feedback to students while also improving my code reviewing skills at the same time.*

Max of Manila Restaurant, Vaughn, Ontario, Canada
Management Trainee/Marketing Coordinator
April 2012 – May 2013

- *Responsibilities:* Stepped in numerous roles such as dishwasher, busboy, cashier, server, stock manager, and marketing coordinator to learn different aspects of the business so that I understand how to manage colleagues.
- *Accomplishment:* Reduced food cost from 35% to 28%. Suggested and implemented marketing placements within restaurant.

San Miguel Canada Corporation, Vaughn, Ontario, Canada
Marketing Executive
April 2012 – May 2013

- *Responsibilities:* Since I was the first partner/employee. I planned, organized, executed and coordinated materials for marketing events to promote beer brand.
- *Accomplishments:* Establish 2 successful partnerships with clients, which would help company, distribute beer products.
